Kaliwags
Box 335 Garibaldi Highlands, BC
V0N 1T0

Dear Customer,

The Guelph Food Technology Centre (GFTC) is currently working with Kaliwags, The Healthy Dog Snack, to provide advice on formulating healthful doggie treats to provide pets with both a tasty snack and additional nutrition.

Kaliwags Dog Snacks were formulated to contain high-quality ingredients, including beef, beef liver, wheat germ, oats, oat bran, pumpkin, apples, kale, and flax seeds, and contains no preservatives.

Preliminary database calculations of the ingredients in the formulation, indicate that most nutrients in the Kaliwags, Healthy Dog Snack, are in the target range of the Association of American Feed Control Officials (AAFCO) and European Pet Industry (fediaf) standards, currently meeting or exceeding the standard for:

- Protein;
- Fat;
- Omega-6 level;
- Calcium-phosphorus ratio;
- Sodium;
- Potassium;
- Magnesium;
- Copper;
- Manganese;
- Selenium;
- Zinc;
- Vitamin A;
- Vitamin E;
- Vitamin B1, B2, B3, B5, B6, B12, and
- Amino acids.

Sincerely,

Gary Fread
President & C.E.O
